

**Allen Bertagne Joins Fusion Petroleum Technologies Inc.
As Vice President of Multi-Client Projects**

November 15, 2004: The Woodlands, Texas

Fusion Petroleum Technologies Inc. is pleased to announce that Allen J. Bertagne has joined the company as Vice President of Multi-Client Projects.

In his new role, Mr. Bertagne will design and develop new multiclient products and services based on Fusion's proprietary technologies. Mr. Bertagne will also work with the leadership team of FPTI to expand the company's rapidly growing business into the European market. Mr. Bertagne will, in addition, be involved in managing ongoing projects in FPTI's service business.

Bertagne most recently worked in CoreLab's Integrated Reservoir Solutions Group as Vice President of E&P Solutions. He has previously worked for Exxon, where he explored in the Utah Wyoming Thrust Belt; for CGG, where he implemented the Megaregional® Project and built CGG's Integrated Studies team; and for PGS, where he led PGS Reservoir Consultants, Inc and was involved in the analysis and interpretation of over a thousand blocks of 3D seismic data in the Gulf of Mexico. Bertagne has also served as Chairman of The Leading Edge editorial board and as First Vice President of the Society of Exploration Geophysicists.

"We are very pleased that Allen has decided to join Fusion", said Dr. John Castagna, Chairman of FPTI. "He brings a unique technical and business background and we look forward to drawing on the experience and skills he has developed as a result of working on a wide range of exploration and production projects."

Dr. Alan Huffman, President of FPTI, added, "Given Allen's familiarity with Europe, we believe that he is well-suited to initiate Fusion's activities in that marketplace. We are optimistic that companies with operations in Europe will find our technology and services as valuable as their counterparts around the world have found them".
