

Lih Kuo Joins Fusion Petroleum Technologies as Vice President of Seismic Analysis

May 27, 2003: The Woodlands, Texas

Fusion Petroleum Technologies Inc. is pleased to announce that Mr. Lih Kuo, formerly with ARCO, has joined the company as its Vice President of Seismic Analysis.

In his new role as the Vice President of Seismic Analysis, Mr. Kuo will manage the technology and services provided by FPTI in petrophysics, geopressure, direct hydrocarbon detection and seismic attributes. He will work closely with Dr. Alan R. Huffman, President of FPTI, to grow the company's business in the field of seismic analysis. Mr. Kuo will also work closely with research staff in Houston and in FPTI's parent company, Fusion Geophysical LLC which is located in Norman, Oklahoma.

Mr. Kuo is a proven technology leader with experience in several areas of geophysical technology. "Fusion is very pleased that Mr. Kuo has elected to join our company", said Dr. Alan R. Huffman, President of Fusion Petroleum Technologies Inc. "Kuo's breadth and depth of expertise includes a balance of research, operations and technology support experience, including a broad exposure to the domestic and international petroleum exploration and production business. I believe that Lih will be a key player in the future of Fusion and that he is the right person to build our seismic analysis services business in Houston."
