

Fusion Petroleum Technologies Inc. and Texseis, Inc. Form Strategic Alliance in Seismic Imaging

April 30, 2004, Houston, Texas

Fusion Petroleum Technologies Inc. and **Texseis, Inc.** announced today that the two companies have formed a strategic alliance in the field of seismic imaging. The alliance will allow Fusion and Texseis to provide their clients with a completely integrated processing, time imaging and seismic analysis stream that will benchmark favorably against their largest competitors. Under the terms of the alliance agreement, Fusion will relocate select personnel to the Texseis office on the West Energy Corridor of Houston, and will market Texseis technology and services along with Fusion's current service offerings. As part of the alliance, Mike Graul and Cheri Williams will also join the Fusion Reservoir Associates.

"Fusion is very excited about this alliance with Texseis", said Dr. Alan R. Huffman, President of Fusion Petroleum Technologies Inc. "Through this alliance, Fusion and Texseis will be able to provide the industry with world-class integrated seismic imaging and analysis along with the expertise of some of the industry's top experts."

"Texseis looks forward to this close relationship with Fusion," said Cheri Williams, President of Texseis. "Each company brings its own expertise and technology to the table, which benefits both organizations' clients and enables us to provide a complete package of geophysical imaging services."
